

## The Thing about Barney

-- BY ADAM WEBSTER --

“Well son, looks like you have once again hitched your horse to the wrong fucking wagon.” Barney was sure he had no idea what his father was talking about. So sure, that he decided to question it anyway. And he did not settle for taking his father’s advice metaphorically; he went out, purchased a horse, procured a wagon to which he hitched said horse, and waited it out. He was willing to spend whatever length of time it took to discover the effects.
